Joseph Schieffer

Founder – A2J Tech Store
Topic: 15 Tools in 15 minutes

Joseph Schieffer is the founder and Chief Technology Officer of A2J Tech Store. A2J Tech Store is a social enterprise that builds technology to improve access to justice. Joseph can be found collaborating with advocates to develop user-centered solutions. Joseph is an innovator in leading information technology projects. He has earned the Project Management Professional designation from the Project Management Institute, and the Certified ScrumMaster designation from Scrum Alliance. He holds a Master of Science in Business Administration from the University of Florida, and a Bachelor of Science from the United States Air Force Academy.

Quentin DeWitt

Consulting Manager – ERP Advisors Group
Topic: Software Needs Analysis

Quentin has been in the Information Technology business for over 20 years. He has led teams as a Director of IT, brought innovative products to market as a Product Manager, and led large teams as a Director of Technical Support. He got his start building PCs, testing hardware, and working in telecommunications. From there he went on to ISPs, Technical Support, Customer Service, Systems Administration, Product Management, and Director level positions in the Software Technology field. Today he provides leadership and guidance to our consulting team through a wide variety of technical knowledge, experience, and skills, along with being a Microsoft Certified Professional, Administrator, Systems Engineer and an experienced consultant in the ERP space. Quentin manages the ERP Advisors Group Team on needs analysis, software selection, and implementation services.
